

IN THE SPECIFICATION

In the specification, page 4, second full paragraph, rewrite the paragraph to correct the reference numeral 106 to refer to the outlet.

In use, inlet 105 is connected to an aerosol medicament reservoir (121) for example, and a dose of inhalant suspension is pumped into chamber 120. The patient then places outlet ~~105~~ 106 in the mouth and inhales steadily to draw the suspension into the lungs.
